Introduction

This teaching is designed to encourage each participant to re-examine their current atmosphere. Provide a solution of actions to interrupt unproductive living. Our goal is to heighten the awareness of reality, encourage evolution, development, and efficiency. If we can transform what we think and believe winning is the only way of living then we can make progress towards our future. Realizing our past is just a reflect of the steps we have made and an indicator of how many steps we must take.

Life was design to be simple

Through this experience we will show how we can enrich our mental capacity, build stronger economies, and establish viable relationships. Life is an opportunity to exhibit what you were created to do. Lets tap into that, what eyes have not seen and ears have not heard. Let's see how simple our creator has made it for us.

We have all experience disappointment and frustration in this life time but this not the time to accept failure. It has to be bound by your actions... take it by force, it is your... Take it back.

That's Forward Living!

Forward Living Declaration I

Living ahead of my problems, breaking the cycle of the past and everything that it cast.

If I fail to break the cycle of my past; My past becomes my future;

I am so full of purpose; it is contagious; everything above the earth; beneath the earth; in the earth has to respect it;

Everywhere I go will prosper; I am purpose driven and purpose living;

My life is priceless; I can never be imp-ed or pimped; I am too expensive for drama, confusion, gossip, lies, and soul ties;

I declare with my war cry that set backs, hindrances and poverty will no be my novelty;

That's Forward Living!!!!
